## **Kennesaw Mustang Basketball Fees for 2010 – 2011 School Year**

### **Total Fees Required: \$550**

\$300 player fees paid up front at initial meeting

\$250 in sponsorships **required. Due by December 14, 2010.**

The total \$550 can be paid up front and in this case the sponsorships are not required. However, if you sell sponsorships after paying \$550 out of pocket, then you would be eligible to receive the \$250 back if you paid this out of pocket at beginning.

### **How to earn back the \$300 in player fees:**

After you sell the \$250 in required sponsorships, every dollar sold above that amount will earn back 50 cents towards the player fee up to the total player fee of \$300. Therefore, if you sell an additional \$600 in sponsorships (for a total of \$850 including the \$250 required) then you would earn back your entire player fee. You cannot earn back more than the \$300 player fee.

### **Examples:**

1) Player pays \$300 fee up front and sells \$500 in sponsorships by December 14, 2010. Player would receive back \$125 towards the initial \$300 player fee. This is  $\frac{1}{2}$  of the amount of sponsorships sold above and beyond the initial \$250 required.

2) Player pays the total \$550 up front which included the \$300 player fee and the \$250 required sponsorships. Player then sells \$500 in sponsorships by December 14, 2010. Player would get back the \$250 in sponsorship fees paid initially and would get back an additional \$125 towards the player fee as well ( $\frac{1}{2}$  of the additional \$250 sold above and beyond the required \$250).
